

What is Palliative Care?

Palliative care is specialized medical care that focuses on providing relief from pain and other symptoms of a serious illness. It also can help you cope with side effects from medical treatments. The Axiom Cares Palliative Team aims to provide comfort and improve quality of life for patients and their family.

Axiom Cares Palliative Program Offers

- Pain and symptom management
- On-call Registered Nurse available 24/7
- Home healthcare
- Caregiver support and education
- Licensed Medical Social Worker
- Medication management
- Rehabilitation services
- Advanced care planning
- Psychosocial and spiritual care
- Transition to hospice care if needed

When to Consider Palliative Care

If you are living with:

- Cancer
- Blood and bone marrow disorder
- Heart disease
- Cystic fibrosis
- Dementia
- End stage liver disease
- Kidney failure
- Lung disease
- Parkinson's disease
- Congestive heart failure
- Multiple sclerosis
- Stroke or other serious illnesses

If any of the following are impacting the quality of life:

- Frequent hospitalization
- Delirium or mental confusion
- Moderate to severe pain
- Nausea or vomiting
- Anxiety or nervousness
- Depression or sadness
- Constipation
- Difficulty breathing
- Loss of appetite
- Fatigue
- Trouble sleeping

Who is a Part of Your Axiom Cares Palliative Team?

Home Healthcare Team

Professionals from different disciplines bringing a special set of knowledge, attitudes, and skills.

On-Call Nurses

Available at all times - typically nights, weekends and holidays for unscheduled needs.

Home Health Aides

Assist the patient in the activities of daily living and provide basic routine care.

Medical Social Workers

Meet with patients and families to understand and address their personal needs at home and long term goals.

Palliative Nurse Practitioner

Evaluate, educate, coordinate and communicate between care providers, the care team, patients and their families.

Spiritual (optional)

Provide spiritual and emotional support to patients, families, and care teams throughout the end-of-life journey.
